

Certificate I in Construction

Course Code: CPC10120

Enrol with Camden College in this entry level qualification and learn about the construction industry, its culture, occupations, job roles and workplace expectations. The modules in this course cover essential work health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials.

This course involves a basic construction project where you will learn how to plan and build a small structure and learn the different stages of managing a construction project. Camden College has an excellent simulation area with all the tools and equipment you need to learn about the construction industry.

ENTRY REQUIREMENTS

- Basic computer skills
- English Proficiency level for the training course reading, writing and comprehension skills
- IELTS 5.5 or equivalent
- Minimum 18 years of age

BUILDING & CONSTRUCTION

MODES OF DELIVERY

- Online
- Classroom
- Simulated work environment
- Distance
- Duration 52 weeks

COURSE DELIVERY

This course is delivered over 52 weeks online using our learning system. This course is available by distance and online only. Camden College holds regular workshops via webinar for students to attend and seek support from their trainer.

RPL CANDIDATE

Candidates must provide evidence of currency and experience by working in a management role for a minimum of 12 months within the past 18 months. A letter on company letterhead from current/past employer(s) verifying this is required.

UNITS OF COMPETENCY

Total number of units = 11 (8 core units plus 3 elective units)

UNITS	TITLE	UNITS	TITLE
CPCCCM1011	Undertake basic estimation and costing	CPCCWHS1001	Prepare to work safely in the construction industry
CPCCCM2004	Handle construction materials	CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry
CPCCCM2005	Use construction tools and equipment	CPCCOM1014	Conduct workplace communication
CPCCOM1012	Work effectively and sustainably in the construction industry	CPCCOM1015	Carry out measurements and calculations
CPCCOM1013	Plan and organise work	CPCCOM1017	Prepare simple construction sketches
CPCCVE1011	Undertake a basic construction project		

RECOGNITION OF PRIOR LEARNING

This Certificate is designed to introduce students to the recognised trade callings in the construction industry and provide meaningful credit in a construction industry Australian Apprenticeship. This course is designed to cover topics common to all construction industry trades, including construction industry induction training and the fundamentals of bricklaying, simple concreting and tiling.

As this is a prevocational course designed for students with little to no vocational experience (apart from assistant labourers, for example), the College will not offer RPL to ensure students have the opportunity to undertake training in 'current' industry skills and knowledge. Credit will be given for units of competency for which a certified copy is produced, subject to the College's own verification. This will be identified prior to course commencement to enable any adjustments to the course program to be finalised.

CAREER OPPORTUNITIES

- Construction Trades Worker
- Construction Apprentice
- Construction and Mining Labourer
