

Certificate II in Construction Pathways

Course Code: CPC20220 | CRICOS

Course Code: 505731C

This qualification provides a pathway to the primary trades in the construction industry with the exception of plumbing. Trade outcomes are predominantly achieved through an Australian Apprenticeship and this Certificate II allows for inclusion of skills suited for entry to off-site occupations, such as joinery and shopfitting as well as carpentry, bricklaying and other occupations in general construction.

This Certificate II is designed to introduce learners to the recognised trade callings in the construction industry and provide meaningful credit in a construction industry Australian Apprenticeship.

ENTRY REQUIREMENTS

- Basic computer skills
- English Proficiency level for the training course reading, writing and comprehension skills
- IELTS 5.5 or equivalent
- Minimum 18 years of age

CAMDEN
COLLEGE

BUILDING & CONSTRUCTION

MODES OF DELIVERY

- Online
- Classroom
- Simulated work environment
- Distance
- Duration 52 weeks

COURSE DELIVERY

The qualification offers a maximum period of 52 weeks (including 4 weeks holiday) from the date of commencement in which to complete their studies and submit all work for assessment. Students will attend face-to-face 2 x days per week 9am-5pm. This includes training and assessment. In addition students are required to complete up to a maximum of 5 hours per week independent, unsupervised activities.

RPL CANDIDATE

Students should demonstrate an interest in and suitability for work in the Construction field. This may include some previous work in the industry or prior exposure to this area through school or other activities.

RECOGNITION OF PRIOR LEARNING

This Certificate II is designed to introduce students to the recognised trade callings in the construction industry and provide meaningful credit in a construction industry Australian Apprenticeship. This course is designed to cover topics common to all construction industry trades, including construction industry induction training and the fundamentals of bricklaying, simple concreting and tiling.

As this is a pre-vocational course designed for students with little to no vocational experience (apart from assistant labourers, for example), the College will not offer RPL too ensure students have the opportunity to undertake training in 'current' industry skills and knowledge. Credit will be given for units of competency for which a certified copy is produced, subject to the College's own verification. This will be identified prior to course commencement to enable any adjustments to the course program to be finalised.

CAREER OPPORTUNITIES

- Construction Labourer

UNITS OF COMPETENCY

Total number of units = 10 (5 core units plus 5 elective units)

UNITS	TITLE	UNITS	TITLE
CPCCOM1012	Work effectively and sustainably in the construction industry	CPCCWF2002	Use wall and floor tiling tools and equipment
